

# Urban Digital Innovation

Erasmus  
University  
Rotterdam

## Executive Leadership Programme

*Working towards  
Climate Neutral Cities and  
the European Green Deal*

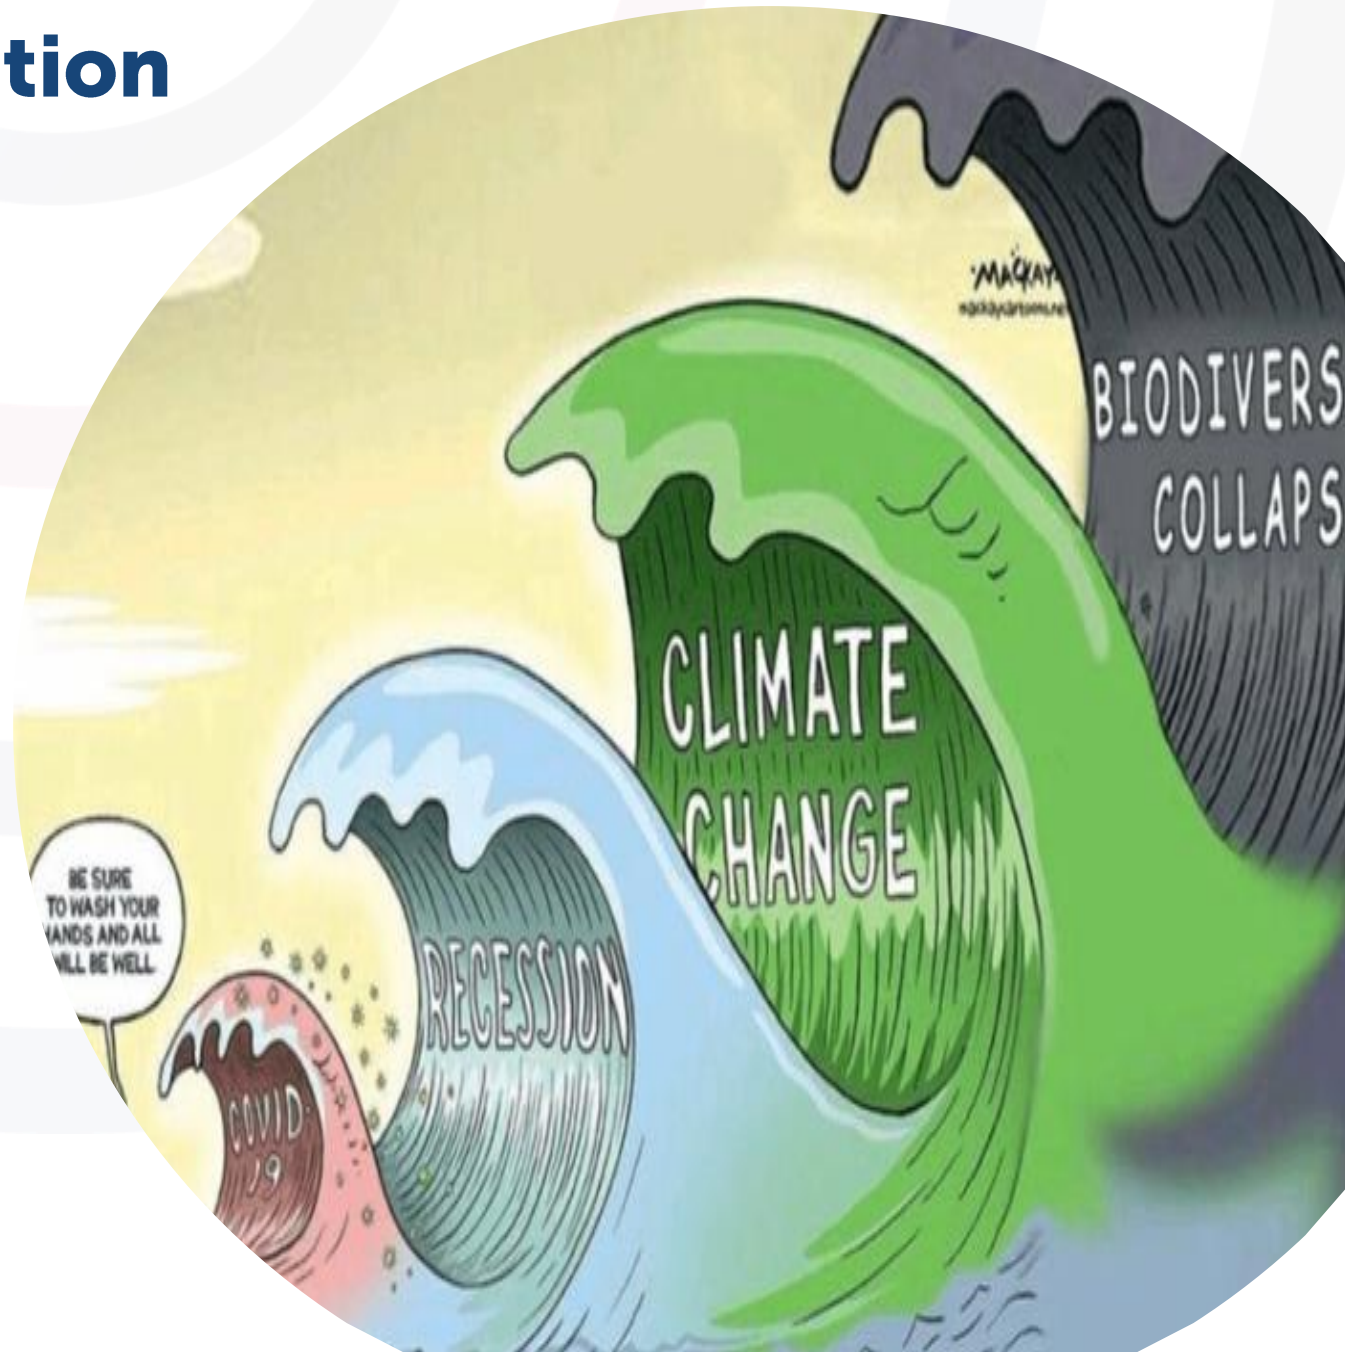

September 20-22, 2023 in Rotterdam

A pair of hands is shown holding a glowing globe. The globe is covered in a network of white lines and blue dots, representing a digital or data-driven world. The hands are positioned at the bottom, with fingers spread, supporting the globe. The background is a dark blue gradient with abstract circular patterns and a bright light source at the bottom center of the globe.

Preparing our governments,  
organizations & cities  
for a **sustainable,**  
**data-driven** future

# Riding the waves of Disruption

Getting ready for the necessary systemic changes.....

## European Green Deal covers 9 policy areas

### Sustainable industry

ways to ensure more sustainable, more environmentally-respectful production cycles

### Eliminating pollution

measures to cut pollution rapidly and efficiently

### Clean energy

### Building and renovating

the need for a clean construction sector

### Sustainable mobility

promoting more sustainable means of transport

### From Farm to Fork

ways to ensure more sustainable food systems

### Biodiversity

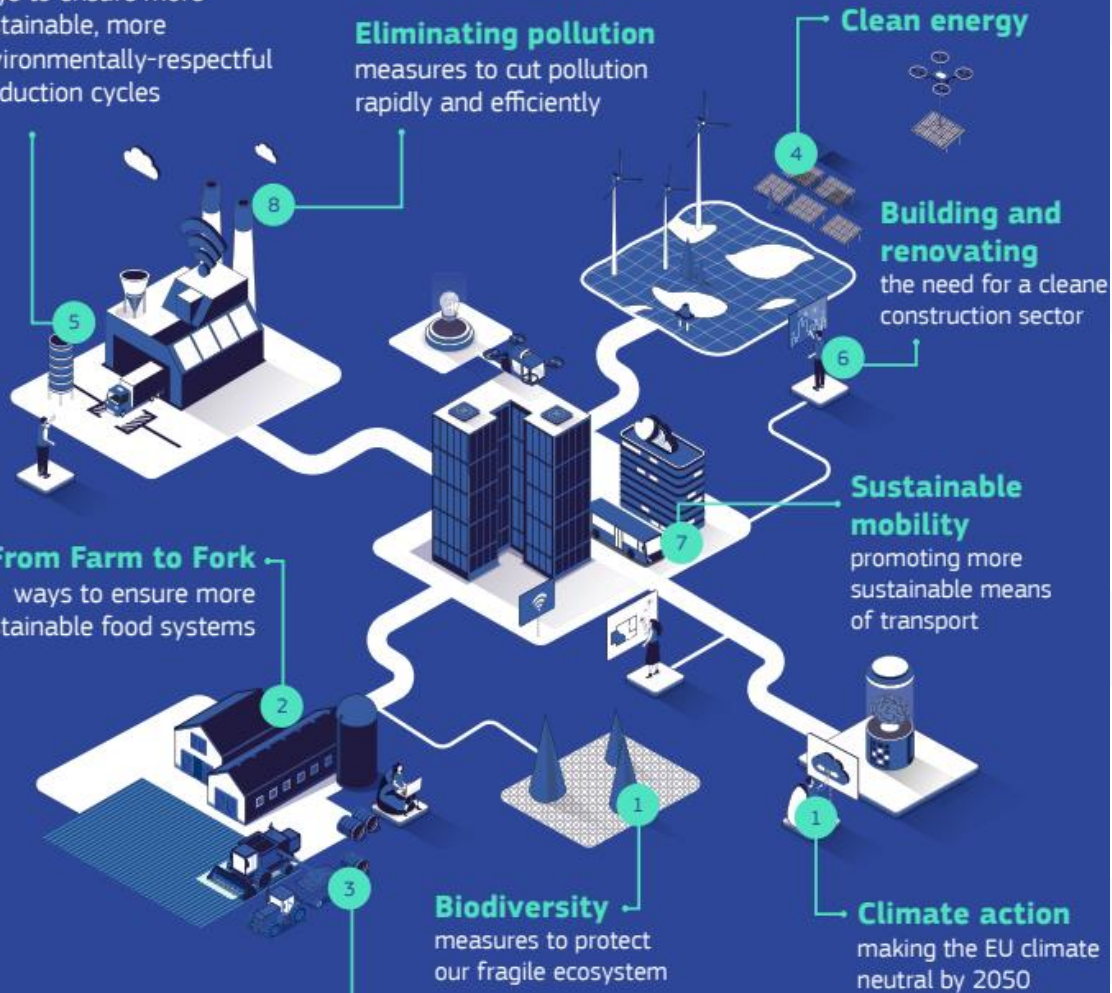

measures to protect our fragile ecosystem

### Climate action

making the EU climate neutral by 2050

### Sustainable agriculture

sustainability in EU agriculture and rural areas thanks to the common agricultural policy (CAP)

# European cities are key actors to ensure the transition towards a climate-neutral society

*In order to achieve a sustainable transition, cities must leverage digital technologies to their advantage. By being both:*

- **adaptive**  
e.g. searching for, identifying, and adopting technologies that can support their sustainability goals
- **proactive**  
e.g. working with enterprises and research institutes to steer innovation towards solutions that will serve the interest of the citizens and the public good

*This programme prepares public & private organizations in cities for developing successful digital innovation initiatives to realize their ambitions towards the European Green Deal...*

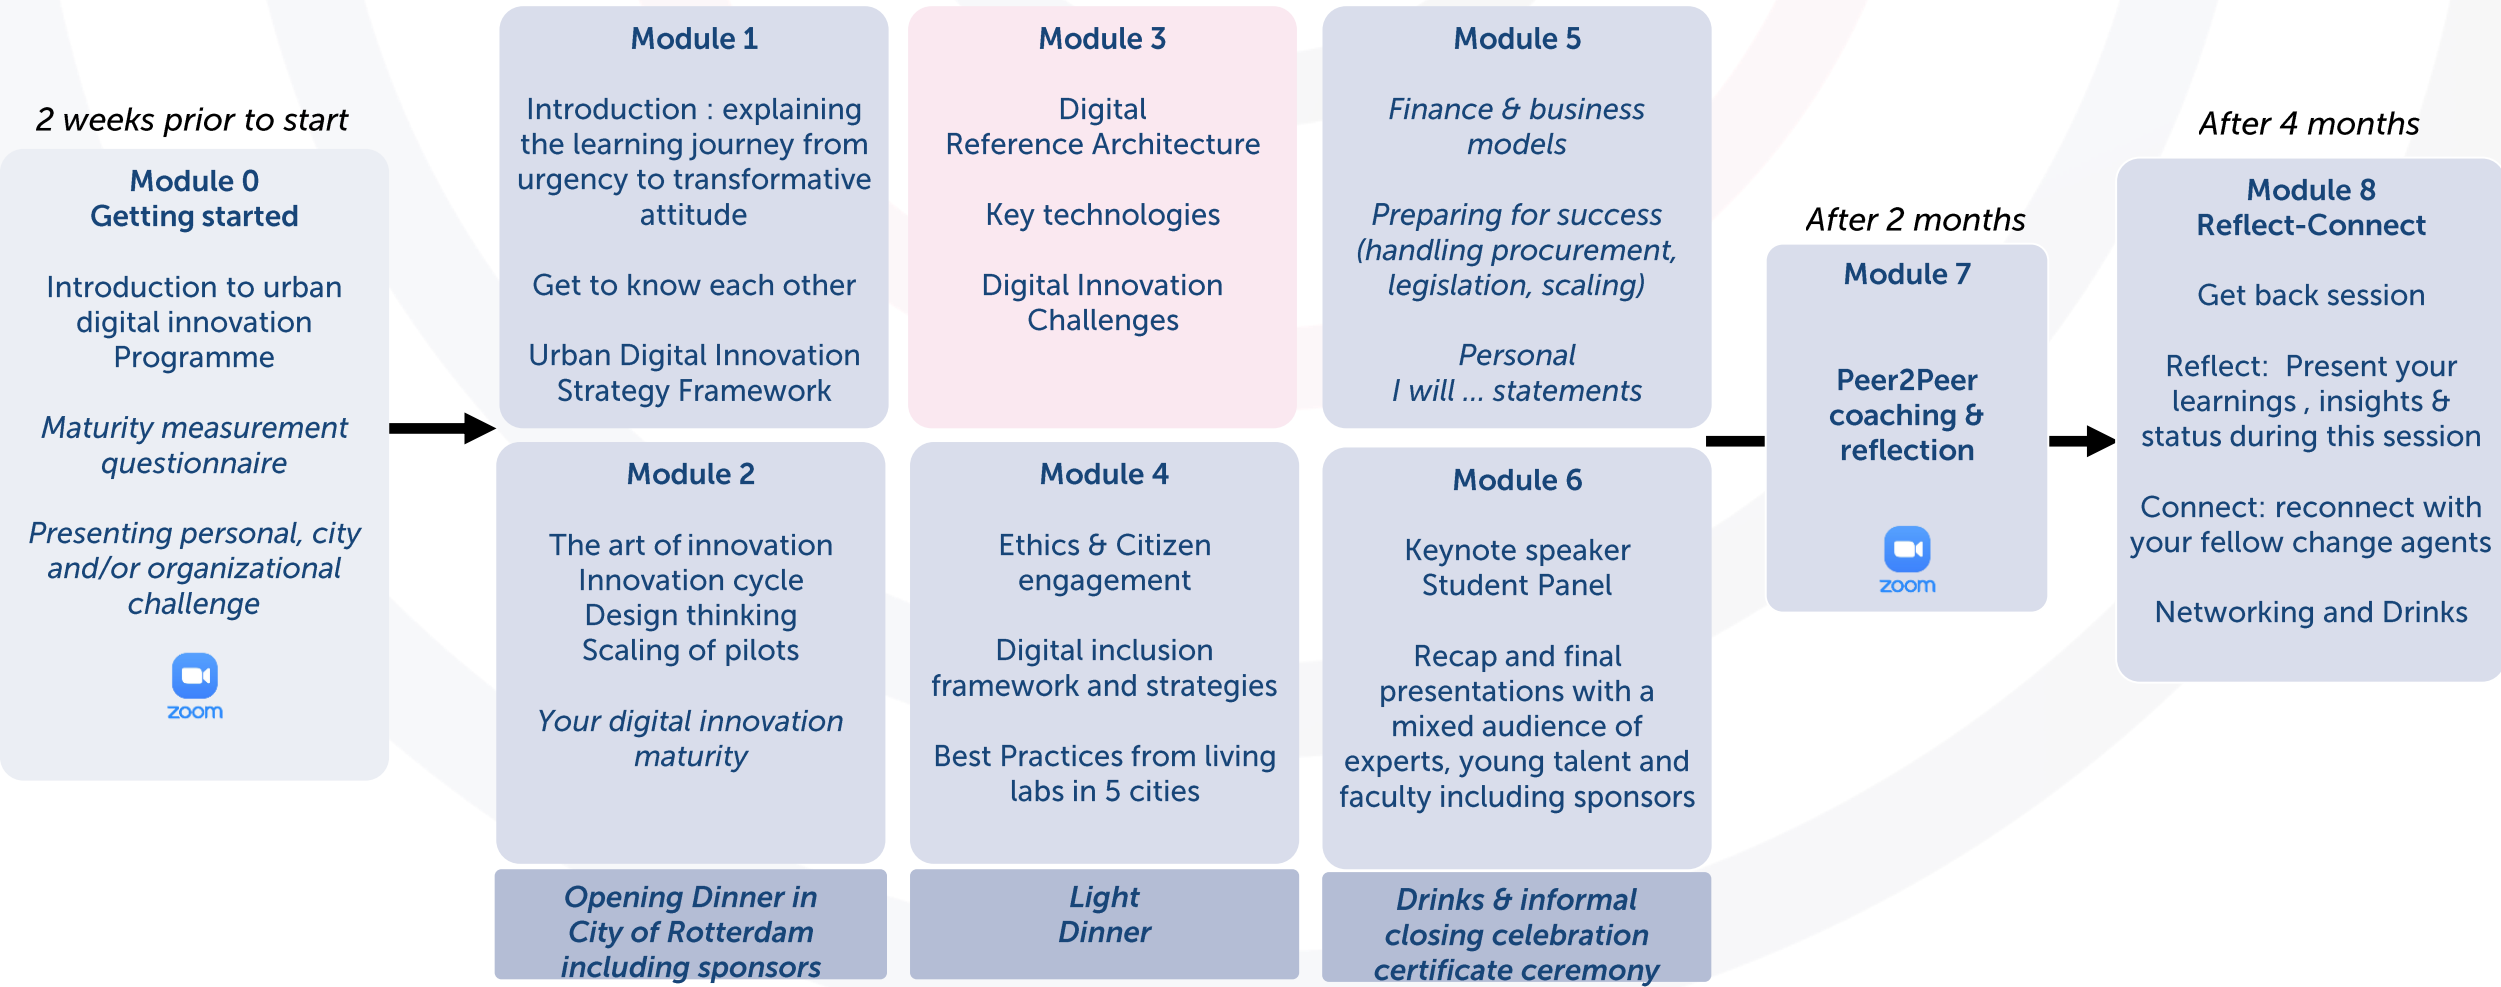

**...and supports in achieving the SDGs, as identified by the UN**

# Key Objective

*Understand and apply critical building blocks of a comprehensive digitalization strategy for a city or organization that include: agile governance, ethics, trust building, digital fundamentals, and inclusive design approaches.*

# Curriculum

eLearning environment

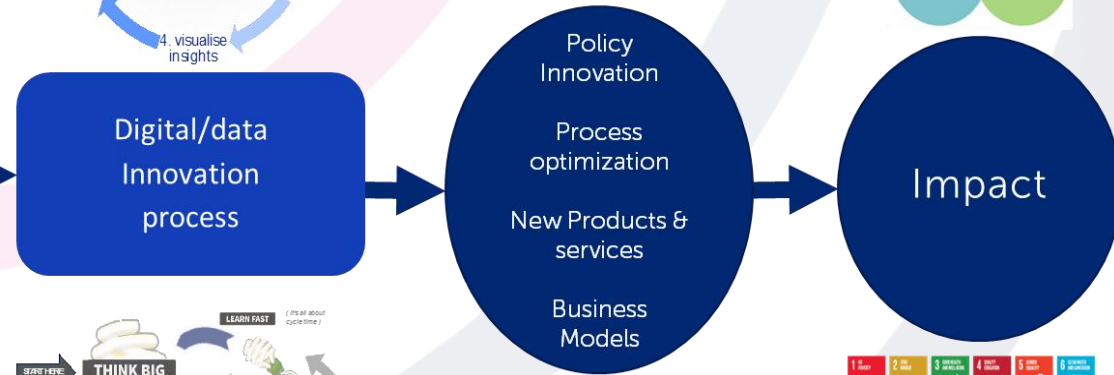

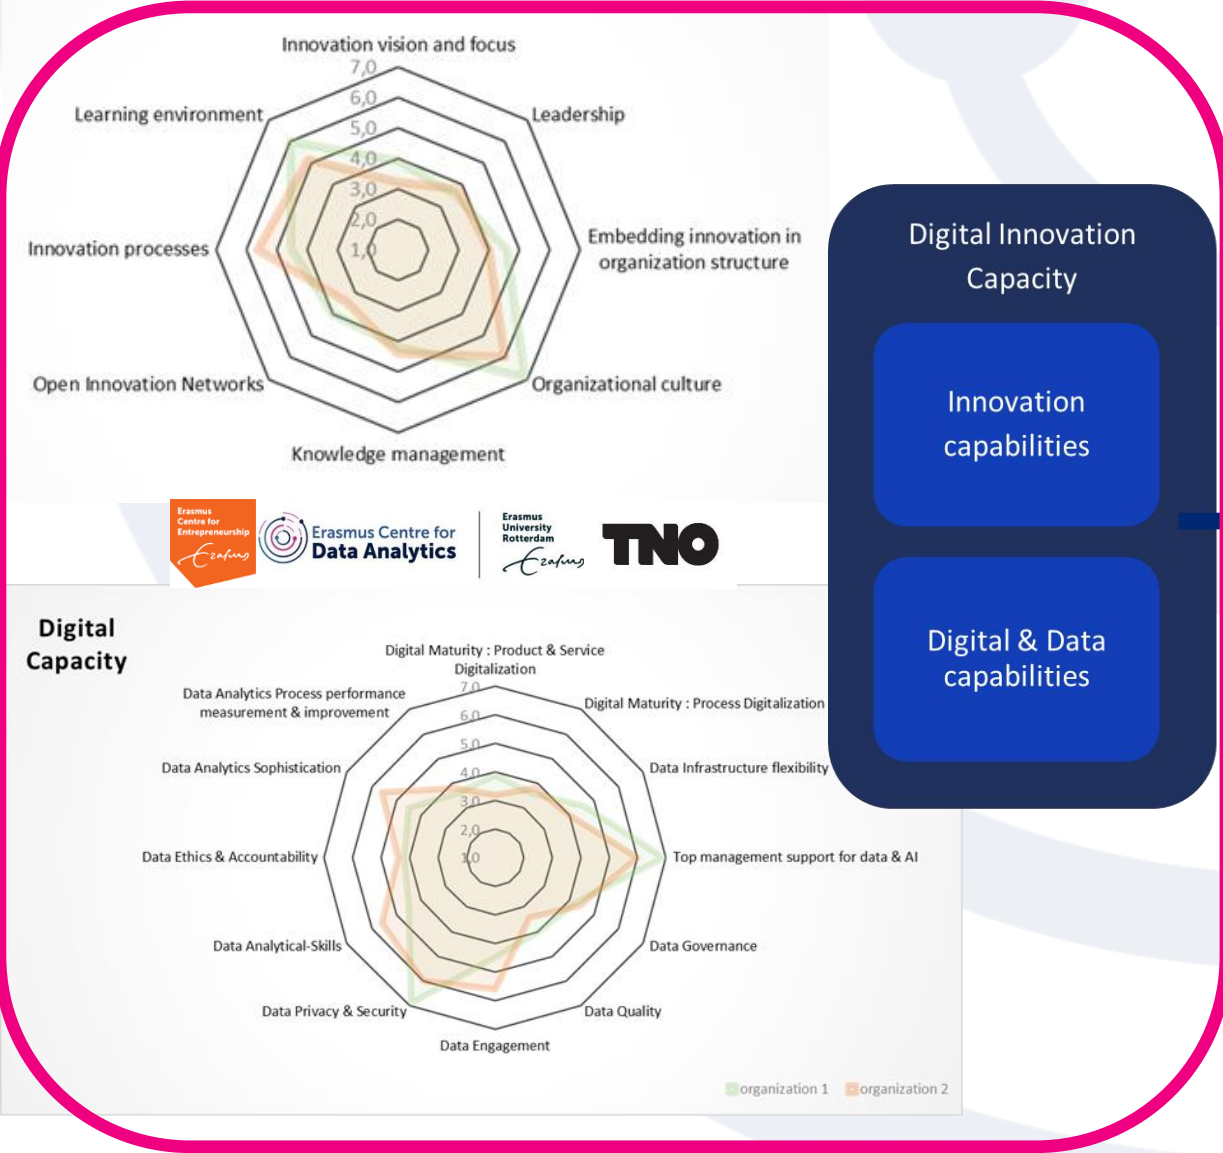

# Approach

- *Build bridges across innovation, digital and sustainability*
- *Provide participants with actionable frameworks*
- *Stimulate critical thinking and creativity*
- *Apply to own use case / project*
- *Peer-2-peer learning and coaching*

# Innovation and Digital Maturity assessment

# Who should attend?

Leaders and Innovation teams from the following sectors

## Public Sector

Leaders and practitioners at municipalities and regional authorities, including those working in areas of sustainability, energy, digital and data, innovation

## Semi-public Sector

Leaders and practitioners at semi-governmental organizations (e.g. utilities, transport operators)

## Private Sector

Leaders and practitioners at companies that stand to contribute to urban innovation agendas or expect to make their inroads into this arena in the foreseeable future

# Who should join your team?

## Suggested team composition

Innovation

Digital

Sustainability

Internal sponsor (e.g. CDO/CIO, alderman, etc.)

# Unique programme characteristics

Multidisciplinary teams  
(Innovation, Digital &  
Sustainability) & Connect  
with internal sponsors

Developed  
by cities for cities  
with learnings from global  
communities of smart cities

Apply learnings directly  
on own challenge  
or digital innovation  
project

Holistic curriculum with  
internationally renowned  
experts & speakers

hosted by  
Erasmus Centre for Data Analytics  
Erasmus University Rotterdam

Optional :  
follow-up electives to  
deepen expertise  
coaching trajectory  
via our partner network

3 day intense core  
programme  
with unique  
Rotterdam experience

Incorporates learnings from  
EU smart city programme  
Ruggedized, the European  
network of Living Labs and  
Living-in-EU

Peer-to-peer learning and  
outside-in perspective

# Partners

Gemeente  
Rotterdam

**TNO**  
innovation  
for life

# Expert Speakers and Key Faculty

**Bas Boorsma**  
Thought leader on  
smart cities

**Prof. Liesbet van Zoonen**  
Thought leader on  
smart inclusive cities  
Center for BOLD cities

**Dr. Ferdinand Jaspers**  
Thought leader on innovation  
Erasmus Center for  
Entrepreneurship

**Prof. Roland Ortt**  
Thought leader on urban  
innovation management  
TU Delft

**Dr. Negar Noori**  
Researcher  
Erasmus University Rotterdam

**Jonathan Reichental**  
Thought leader on  
smart cities

**Dr. Haydee Sheombar**  
Expert on digital transformation  
Rotterdam School of Management

**Diana Vonk Noordegraaf**  
Senior consultant  
TNO

**Tess Tjokrodikromo**  
Researcher  
TNO

**Jonas Onland**  
CEO Serendipity

More experts from practice will be added in the coming months

# Invited City experts

**Roland van der Heijden**  
*Programme manager  
City of Rotterdam*

**Tijn Kuyper**  
*Accountmanager Digital  
Innovation / Smart Cities  
City of The Hague*

**Severine Trouillet**  
*expert speaker  
Dassault Systèmes*

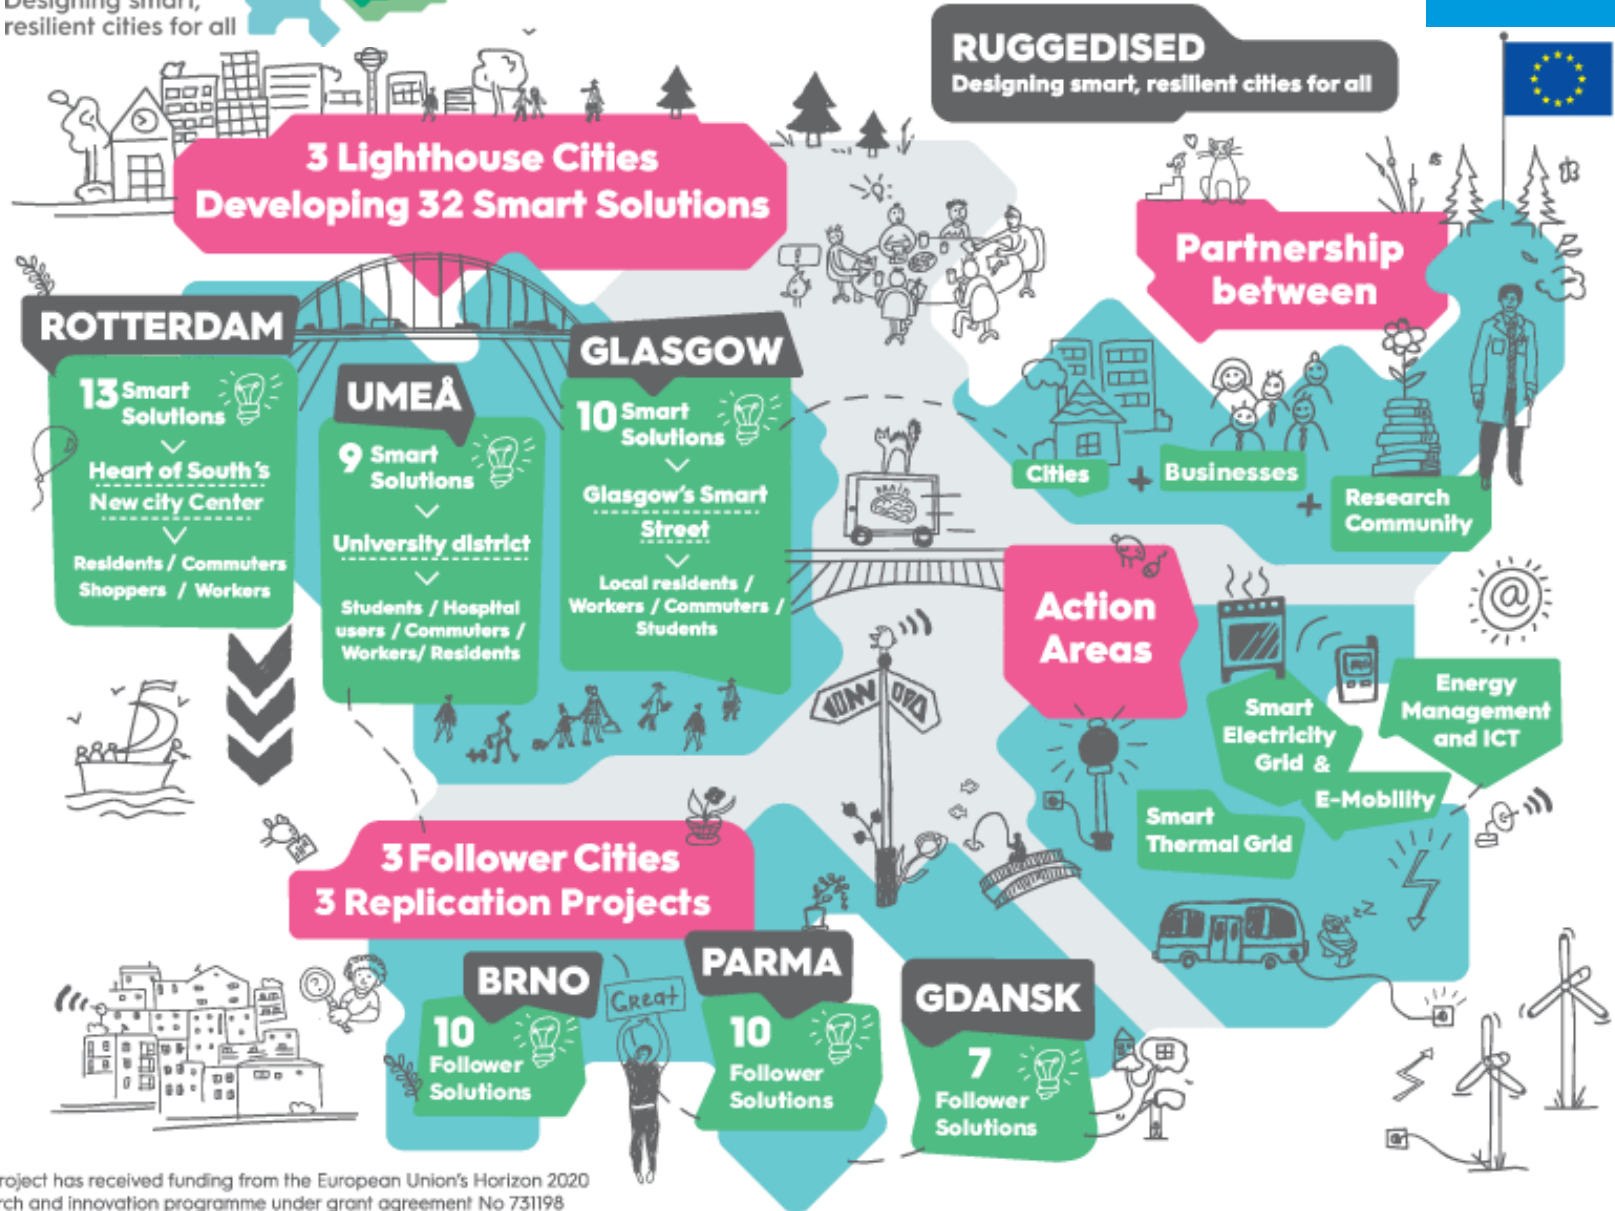

**Justine Gangneux**  
*Data Space Project Coordinator  
Eurocities*

**Martina De Sole**  
*Director  
ENoLL (European network of living Labs)*

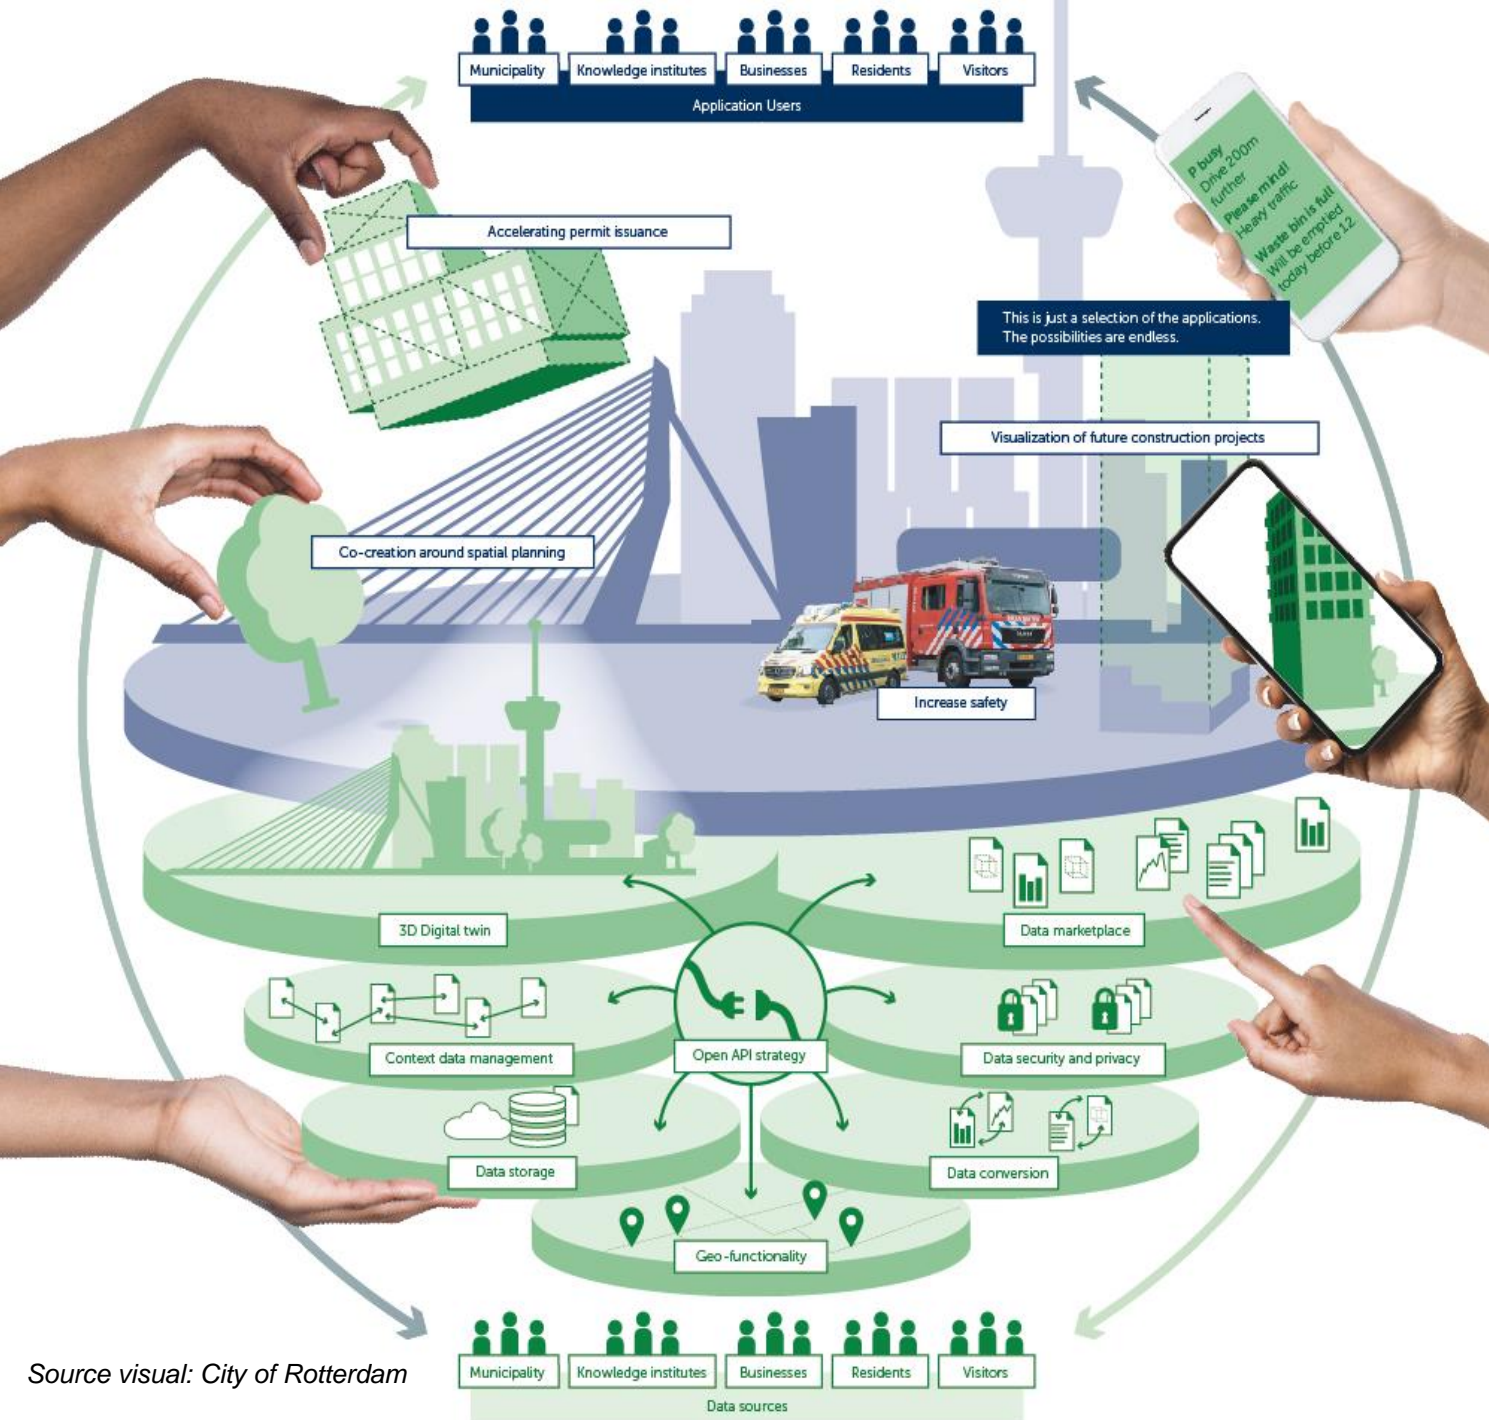

*More experts from practice will be added in the coming months*

**Key learnings from the EU Ruggedised project serve as foundation for the programme**

*by cities for cities*

# Examples of digital innovation projects to elaborate upon in the programme

- Open urban data platforms and digital twins
- Smart energy applications, such as identifying solar roof opportunities and matching energy demand with supply from renewable sources
- Air quality monitoring based on AI
- Citizen engagement and co-creation tools for green digital deal
- Data driven optimization of indoor air quality and energy use in smart buildings
- Sustainable district heating solutions
- Door-to-door digital mobility and smart charging solutions
- Smart solutions for cities' lighting, safety and security

*Join an international community of changemakers driving a sustainable future in urban environments by realizing the potential of digital innovation ecosystems...*
